AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a final guidance for industry entitled “Submitting Documents Using Real-World Data and Real-World Evidence to FDA for Drug and Biological Products.” To facilitate FDA’s internal tracking of submissions to the Agency that include real-world data (RWD) and real-world evidence (RWE), this guidance encourages sponsors and applicants to identify in their submission cover letters certain uses of RWD/RWE. This guidance does not address FDA’s substantive review of the RWD/RWE submitted as part of the Agency’s standard review process. This guidance finalizes the draft guidance entitled “Submitting Documents Using Real-World Data and Real-World Evidence to FDA for Drugs and Biologics” issued on May 9, 2019.

DATES: The announcement of the guidance is published in the *Federal Register* on [INSERT DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry entitled “Submitting Documents Using Real-World Data and Real-World Evidence to FDA for Drug and Biological Products.” As one mechanism to inform FDA’s RWE program under the 21st Century Cures Act (Pub. L. 114-255), and specifically to help FDA understand the scope and use of RWD/RWE submitted to support regulatory decisions regarding safety and/or effectiveness, the Center for Drug Evaluation and Research (CDER), the Center for Biologics Evaluation and Research (CBER), and the Oncology Center of Excellence (OCE) track certain types of submissions involving RWD/RWE. As described in this guidance and to promote consistency in this effort, CDER, CBER, and OCE encourage sponsors and applicants to identify whether their submissions include certain uses of RWD/RWE. To assist FDA in tracking of RWD/RWE submissions, FDA recommends that the sponsor or applicant include the following information in their cover letter: (1) purposes of using RWD/RWE, (2) study designs using RWD to generate RWE, and (3) RWD sources used to generate RWE.

This guidance finalizes the draft guidance entitled “Submitting Documents Using Real-World Data and Real-World Evidence to FDA for Drugs and Biologics” issued on May 9, 2019

(84 FR 20368). FDA considered comments received on the draft guidance as the guidance was finalized, and changes were made to improve clarity.

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on "Submitting Documents Using Real-World Data and Real-World Evidence to FDA for Drug and Biological Products." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. Therefore, clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3521) is not required for this guidance. The previously approved collections of information are subject to review by OMB under the PRA. The collections of information in 21 CFR part 312 have been approved under OMB control number 0910-0014; the collections of information in 21 CFR part 314 have been approved under OMB control number 0910-0001; and the collections of information in 21 CFR part 601 have been approved under OMB control number 0910-0338.
